

Managing Change in Organisations

DESCRIPTION

This 2-day interactive course is based on a structured methodology, using examples, exercises, and case studies:

- To facilitate the change process underway within the organisation
- To support teams in understanding the importance of Change Management
- To provide a vital skill for any member of a Change Team
- To create the basis for team building

BENEFITS

- Participants understand more about the Change Management process
- Groups learn to communicate and work together more efficiently
- Projects are implemented successfully
- Employees work with the solutions rather than against them
- The time, money and resources invested in the whole project are not wasted
- Confidence in management increases
- A clear, shared vision of the future is ensured
